# INTERNATIONAL CONFERENCE ON BIOLOGICAL INVASIONS 13<sup>TH</sup> EDITION

## WORKSHOP #4 LIFE PROJECTS DEALING WITH INVASIVE SPECIES MANAGEMENT

The LIFE-Program is an important funding line to Manage Invasive Alien Species (IAS) within the European Union. In this Workshop, we would like to invite the different LIFE projects to share their main results in fighting IAS but as well share their approaches to solve problems related with the implementation and management of their projects. We hope that we could raise some enthusiasm within more applicants to the LIFE-Program tackling IAS, especially those colleagues deal closely with this problem in their territories.

**TARGET AUDIENCE** The workshop targets mostly researchers, managers, municipality technicians that work with IAS in their territory.

**ORGANIZER** Filipe Manuel Vidas Ribeiro

**E-MAIL** fmribeiro@fc.ul.pt

**INSTITUTION** MARE/ARNET - Faculdade de Ciências da Universidade de Lisboa

**COUNTRY** Portugal

**ADDRESS** MARE - Marine and Environmental Sciences Centre, Faculdade de Ciências da Universidade de Lisboa, Campo Grande, 1749-016 Lisboa, Portugal

**DURATION** 3 hours

**PERIOD** Morning

**ORGANIZER LINK** <https://orcid.org/0000-0003-3531-5072>

**OTHER RESEARCHERS INVOLVED** Pietro Volta (LIFE-PREDATOR), Francisco Oliva Paterna (LIFE-INVASAQUA), Ricardo Freitas (LIFE-SNAILS)

**NUMBER OF PARTICIPANTS** 30-50
